MULSANNE  
ACCESSORIES RANGE

The pinnacle of personal choice.

### Express yourself uniquely.

Owning a Bentley Mulsanne is as pure an expression of personal taste as one could hope for. The choices you make go towards creating a car as unique as you are, a car that can thrill and surprise in equal measure. On the following pages we have detailed a selection of Bentley Accessories available to enhance and personalise your Mulsanne even further.

Each of these additions has been crafted with the same fastidious dedication and attention to detail as originally bestowed upon your car. As the pinnacle of British luxury motoring, your Mulsanne deserves nothing less.

BRIGHT STAINLESS STEEL  
DOOR PILLAR FINISHER 14

TYRE CRADLES 39

BRANDED VALVE CAPS 13  
DIGITAL TYRE PRESSURE GAUGE 39

## The genuine article.

All the accessories featured on these pages are designed to bring even greater enjoyment to owning your Mulsanne. Furthermore, many have been designed, fashioned and handcrafted by the same people who originally designed your vehicle. For instance, there's a good chance that the same person who stitched the hide for your driver's seat will also have used their skills on the hide steering wheel featured. It's the little touches that leave the biggest impression.

Whilst non-genuine items may be available, they are not subject to a full Bentley warranty or as rigorously tested as those featured in this brochure. There really is no better way to keep your Mulsanne looking and performing at its peak than entrusting it to those who know it as well as you do.

## Exterior Accessories

### Not reinvented. Just perfected.

The wheels on the Mulsanne are as fundamental to the Bentley motoring experience as the powertrain or luxurious seats. They are the epitome of form fused with function, able to withstand the immense power and torque that is instantly available. Furthermore, they are a fitting accompaniment to the fluid lines and stately presence of the Mulsanne's exterior.

It's long been held true by passionate designers at Crewe that "a wheel has to be in perfect harmony with the shape of the vehicle, as it will have a major impact on perception." Wise words all round it has to be said. Of course, that's not to say there isn't room for change.

This range of alloy wheels brings you the opportunity to personalise the outward expression of your Mulsanne, to stunning effect.

● 21" CLASSIC WHEEL

(Shown in painted finish, also available in polished finish)

● 20" MULSANNE WHEEL

(Shown in painted finish, also available in polished finish)

• 21" 2-PIECE 5-SPOKE WHEEL  
(Shown in painted finish, also available in polished finish)

• 21" 2-PIECE MULLINER DRIVING SPECIFICATION WHEEL  
(Available in painted finish)

The perfect gift for owners who wish to add an exclusive touch right down to the smallest detail, these eye-catching hexagonal Valve Caps feature the Bentley 'B'. The set includes five Branded Valve Caps, one for each wheel and a spare.

• BRANDED VALVE CAPS

## Competitive edge.

Those wishing to enhance the sporting essence of their Mulsanne can opt for a range of exterior features alluding to Bentley's competitive heritage. Developed by Bentley Boy John Duff in the 1920s to protect the radiator from stones during racing at Le Mans, the matrix grille has since become an iconic feature.

Fast forward to today, and a gleaming adaptation of that signature hallmark can be seen on both the Bright Stainless Steel Bumper Grilles and Bright Stainless Steel Wing Vents. Providing a stunning focal point to both the front and side aspects of your Mulsanne, these accessories add a contemporary touch and distinctive look to the car that would surely have earned the John Duff seal of approval.

Further individuality is available courtesy of a Bright Stainless Steel Finisher to the B-pillar, which provides an elegant finish to lighter-coloured paint choices and an eye-catching contrast to darker exteriors. Any of these additions will add a distinguished and personal touch within classic Bentley proportions.

- BRIGHT STAINLESS STEEL BUMPER GRILLES
- BRIGHT STAINLESS STEEL DOOR PILLAR FINISHER
- BRIGHT STAINLESS STEEL WING VENTS

## Hidden gems and finishing touches.

The original Bentley radiator badge was designed by legendary motoring artist F. Gordon Crosby, who purposely included a different number of feathers on each of the wings that flank the 'B' to make it hard to counterfeit. In 1930 he adapted his original design and developed the Flying 'B' mascot, first gracing the bonnet of the Bentley 8-Litre that same year. You can capture something of the spirit of those early pioneers of British racing by opting for the Flying 'B' mascot. This proud and lustrous addition to the bonnet of your Mulsanne retracts effortlessly into the grille to conform to current safety standards.

The Jewel Fuel Filler Cap is a very different, but equally distinctive means of personalising your Mulsanne. As a gleaming example of Bentley brightware, its charms are entirely hidden, revealed only when refuelling to the quiet satisfaction of those performing the task. The idea came from a Bentley customer who felt every point of contact with his Bentley should be a joy, leading the design team to take up his challenge to fashion a more elegant and bespoke item. Delighted with the results, word soon spread of this charming addition and the Jewel Fuel Filler Cap has been a highly desired option ever since.

## Interior Accessories

## Precision parking.

Precision is a concept we take very seriously at Bentley. Particularly when it comes to parking. The Bentley Rear View Camera is an innovative and indispensable piece of technology on hand to assist manoeuvrability. Discreetly located above the registration plate and engaged automatically when reverse gear is selected, your reversing view is displayed with incredible clarity on the infotainment screen. By overlaying graphics on the live image, the camera, in conjunction with the parking system, will guide and direct you in or out of the tightest situations. The combined effect provides the driver with trouble-free parking, safer low speed manoeuvring and the careful negotiation of bollards or other obstacles. After all, why shouldn't parking your Mulsanne be as stress-free and effortless as driving it?

Parking assistance doesn't however end there. Further peace of mind comes courtesy of the Valet Key, which allows other drivers, for example hotel parking valets, access to the car while preventing entry into the rear compartment or glove box.

## Keep your loved ones close.

Every journey should be an experience that feeds the senses. That indispensable connection between you and the road ahead, the feel of the steering wheel beneath your grip, the scent of the hide interior, the sound of that unmistakable Mulsanne powertrain. Add to that the harmonics of your favourite music and can you think of anywhere else you'd rather be?

The Bentley Personal Music Integration Kit is a seamless way of enjoying all the music you love in the cabin of your Mulsanne. By effortlessly linking your iPod®, iPhone® or MP3 player directly to your Bentley sound system, you can select tracks and control volume through the infotainment system or steering mounted controls. It also goes without saying that leads for an audio jack and USB are included. And while you enjoy the soundscape, your iPod®, iPhone® or MP3 player is neatly stowed out of sight, in the unique and specially designed hide-lined drawer. Looks beautiful, sounds incredible.

### ◆ PERSONAL MUSIC INTEGRATION KIT

It takes something rather special to enhance the comfort levels of the Mulsanne. No surprise then that a great deal of time and effort, not to mention the finest materials, have been lavished on the Bentley Relaxation Pack. This addition includes two Bentley branded hide scatter cushions, individually trimmed to match the main hide colour of your interior, and two individual footrests (not shown), designed to support your passengers' feet at their most comfortable elevation. Each of the footrests are upholstered in luxurious, deep pile carpet to match the existing floor covering.

When it comes to knowing how to relax in style, take the Bentley lead and opt for Mulsanne integrated picnic tables. Finished in exquisite, handcrafted veneer with a gleaming polished appearance, they provide a surface for rear passengers to set down drinks and other items.

For the additional convenience of your companions, an extra cradle can also be installed in the rear for a Privacy Telephone Handset. This useful feature provides dedicated stowage and charging so the wireless handset can be used in both the front and back of your Mulsanne. After all, where better to unwind, whether stationary or on the move, than in a luxurious Bentley interior with everything to hand.

- RELAXATION PACK
- PICNIC TABLES
- ADDITIONAL CRADLE TO REAR FOR PRIVACY TELEPHONE

### By invitation only.

At Bentley we take a different view on luxury, and with the addition of Privacy Curtains you too can see luxury in a new light. Designed to give total privacy in the rear of the car, they allow you to keep the outside world out when and where you desire it most.

The curtains are integrated seamlessly into the back windscreen and rear window units and can be controlled electronically via the front console or from the rear passenger compartment. The luxurious, dark fabric curtains can be drawn or retracted independently or simultaneously, offering complete durability as well as the privacy you require, for as long as you require it.

◉ SIDE AND REAR WINDOW PRIVACY CURTAINS

## The longest journey starts with the smallest step.

Opening the door and taking your position behind the wheel is always a joy. But as usual our design team strive to perfect, and that's why they chose to enhance that simple transition, the shortest of journeys – the one in and out of your Mulsanne. The result is two variants of the standard treadplate that can be expertly fitted by your dealer to the threshold of the door. Illuminated Treadplates bear the name Mulsanne in letters that light up automatically when the door is opened, casting a delicate glow when you enter or exit the cabin.

Personalised Treadplates are another example of the levels of personalisation available. Your choice of name, model or registration, for example, can be crafted into a design with echoes of the iconic Bentley matrix grille. A gratifying touch towards creating a car as individual as you.

- ILLUMINATED TREADPLATES
- PERSONALISED TREADPLATES

## Natural selection, the Bentley way.

An appreciation of leather and wood has long been ingrained at Bentley, and as two of nature's most tactile and pleasing gifts, their presence features heavily in the interior of the Mulsanne. It's only natural then, that we offer accessories that allow you to further personalise the cabin. As with any accessories, these are available at any point during the ownership of the car. After all, the freedom to refine should not end the moment you pick up your Bentley.

Veneered Door Panels and a Veneered Gear Lever lend their warmth and beauty to the rich internal ambience. Whilst the 4-spoke Steering Wheel, available in three variations of Single Tone Hide, Duo Tone Hide and Wood and Hide, offers a more sensuous connection to the sumptuous materials. The steering wheel also gives you direct fingertip control over the driver information panel, telephone system, trip computer, cruise control and volume control. Each piece handcrafted, in time-honoured tradition, naturally.

- VENEERED DOOR PANELS (Shown in Burr Walnut)

## A touch more luxury.

Craftsmanship has long been associated with Bentley and there remains no purer example than the extraordinary quality and finish of the Mulsanne cabin. However, while others would choose to relax Bentley craftspeople are forever redefining what refinement truly stands for.

The signature knurled surface finish of the Sports Gear Lever provides a highly tactile experience while giving extra grip. A beautiful reflection of Bentley's racing heritage, this iconic finish dates back to the early days at Le Mans, when drivers required additional grip on their rain-soaked dashboard levers to ensure victory. This unique knurled finish also features on the Organ Stop air ventilation controls. Another example of style and substance are the beautifully crafted Drilled Alloy Sports Foot Pedals, which feature individually polished details to each of the raised bosses. Such refined tactility can also be found on the cool-metal interior door handles that feature a striking coined surface finish.

A final touch of luxury comes courtesy of the driver's side Footrest. This non-slip pad, edged in stainless steel, is positioned at a perfect angle in the driver's footwell to offer a comfortable resting place for the motorist's foot.

## Bring out your softer side.

Soft, cushioned, and naturally luxurious to the touch. Nothing else will do for our design team, who have developed a selection of floor accessories to add another level of comfort to your cabin. Made from the softest natural lambswool, Lambswool Rugs are designed to fit precisely in the footwell, adding their natural qualities of warmth and cushioning. Deep Pile Overmats are an alternative footwell dressing, made from high-quality woven pile for a sumptuous and durable finish. Each one is available as a set of two or four in a range of colours to complement the interior palette. Further proof, as if required, that few things in life compare to putting your foot down in a Mulsanne.

- **LAMBSWOOL RUGS**

(Sets of two or four, available in a range of Bentley colours)

- **DEEP PILE OVERMATS**

(Sets of two or four, available in a range of Bentley colours)

## Essential Accessories

## The only limits should be the ones you set yourself.

Nothing should ever diminish the pleasure of driving a Mulsanne. Particularly the weather. Bentley Winter Accessories are available to ensure that whatever the elements, your car can more than handle them. After all, a drop in temperature shouldn't result in a drop in your enjoyment.

The AutoSock® is an ingenious accessory, designed as a temporary measure to provide extra grip and stability in icy or muddy conditions. Made of Kevlar and a special fabric that picks up the snow, the socks are easy to fit allowing you to enjoy gripping performance again in minutes. The fabric is also breathable ensuring there is no adverse effect on the cooling of the brakes. For more sustained traction, Spikes-Spider™ Snow Chains are also available. These differ from traditional chains as they have a central hub that loosely holds the encompassing chains, allowing them to flex in response to road surface and conditions.

- AUTOSOCK®
- SPIKES-SPIDER™ SNOW CHAINS

## A cautionary tale.

The Digital Tyre Pressure Gauge is an essential piece of glove box equipment. It provides easy-to-use, easy-to-read information that is accurate to plus or minus one PSI. Branded with the Bentley Wings, this feature makes an excellent gift for those seeking a more stylish way to measure their tyres.

Bentley Tyre Cradles have been designed to offer maximum protection during the medium to long-term storage of your Mulsanne. The cradles' special, unique polymers ensure the tyres are cooled and then cushioned throughout the storage period, helping to prevent flat spotting.

A Bentley branded compact Battery Charger is also available that can fully charge a discharged battery. Once charged, the conditioner will maintain to the optimum level ensuring you're never left without the luxury of power.

- DIGITAL TYRE PRESSURE GAUGE
- BATTERY CHARGER

### A shining example.

In the heat of competition at Le Mans, few shone brighter than the infamous Bentley Boys. They understood more than most the importance of being seen and being able to see, as they raced for hours in intense darkness. Amid such tension, the thought of being without light didn't bear thinking about. A fact equally unthinkable today.

For those rare occasions when you may need to warn oncoming traffic about a presence in the road, the Hazard and Emergency Warning Light Set provides the perfect solution. This invaluable warning system consists of three studs, which are activated when placed on the ground and emit a high-visibility flashing light.

A further example of our bright thinking is the Bentley Jewelled Torch, ideal for when extra light is required outside of your Mulsanne. Featuring hallmark knurling on its collar and the Bentley 'B' etched on its lens, there is no more stylish a way to light up your path. Easily charged in the cigar lighter, it can be neatly stowed but ready to go when needed.

- HAZARD AND EMERGENCY WARNING LIGHT SET
- BENTLEY JEWELLED TORCH

Come rain or shine.

When the heavens are being less than kind and send a little rain your way, it's good to know that shelter can be found within arm's reach. Integrated into the underside of the luggage compartment lid, Mulsanne Umbrella Stowage provides a secure, and more importantly handy way of storing two telescopic umbrellas.

For those fleeting moments when the weather is being considerate of others, the Bentley Cooler Bag makes an essential travelling companion on long journeys or sun-blessed picnics. With thermo-electric control to keep food and drink warm or cool at precisely the right temperature, your refreshments will arrive as refreshed as you and your passengers. Its sturdy waterproof internal case provides vertical space for two one-litre bottles and a total capacity of 14 litres, while the outer is fashioned from Oxford Nylon to provide a stylish and durable finish.

- UMBRELLA STOWAGE (Umbrellas available separately)
- COOLER BAG

Taking care of everything.

It's natural to want to protect the things we cherish most. And that's never been easier than with Bentley Outdoor and Indoor Covers. Each one is custom stitched to the unique lines and contours of the Mulsanne, and is branded with the Bentley logo on the bonnet. You can also choose to personalise and add the model name or bespoke text, which is embroidered on both sides at sill level. Outdoor covers offer an increased barrier against extreme weather and pollution, while the indoor alternative prevents the damaging effects of moisture and dust that the vehicle can be subjected to even when stored inside.

The Autoglym™ Car Care Kit is a comprehensive range of cleaning and protection products created specifically for the interior and exterior of your vehicle. This unique kit contains everything you need to maintain the original finishes to your vehicle, whilst nourishing and protecting each individual surface.

For added lustre and depth of shine a specially-formulated High Definition Wax is also available. Providing a high-gloss shine and stunning professional finish, this specialist wax provides the ultimate protection against the elements.

Finally, it only stands to reason that after many hours spent finding the perfect shade for your car, you want it to remain as flawless as the day it first left Crewe. To ensure this is the case, Touch-up Paints provide a simple and effective way to maintain the original paint finish of your Mulsanne. So should you be unlucky enough to have to deal with small scratches or marks, these specially-formulated paints will cover them quickly and conveniently with a perfectly colour-matched finish.

- AUTOGLYM™ CAR CARE KIT
- AUTOGLYM™ HIGH DEFINITION WAX
- OUTDOOR AND INDOOR CAR COVERS (Personalisation option available)
- TOUCH-UP PAINTS (Bespoke colours available to order)
